

LANDSCAPING AND GROUNDS MAINTENANCE

We provide plant aftercare and grounds maintenance services to estate managers, local authorities, NGOs, property developers and home owners. Our dedicated team of landscape professionals looks after the residential and public grounds across London.

At every site we maintain, whether commercial or residential, we familiarise and identify every plant and shrub as well the site usage and all other aspects of the landscape in order to tailor the best possible maintenance regime to exact client requirements, always delivering above and beyond expectation. We organise regular visits to ensure the gardens of our clients are maintained to the highest standards. We offer advice and consultancy services on all aspects of tree care, tree surgery and selective pruning work.
